

CONCLUSION

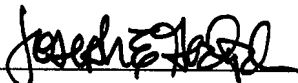

Claim 1 has been amended to incorporate the limitations set forth in claim 2, and claim 2 has been canceled. According to the office action of May 21, 2007, this renders claim 1 patentable. Because all of the other pending claims in the application depend from claim 1, it follows that these claims are also patentable.

The Assignee therefore respectfully requests entry of the amendments to the claims and the issuance of a Notice of Allowability for all of the pending claims.

The Examiner is encouraged to contact the undersigned Assignee's authorized representative at 941-378-2744 to discuss any questions that may arise in connection with this Amendment and Response.

Respectfully Submitted,
